

Shuffleboard

Game rules

- Two teams, one to four players per team
- Both teams take turns sliding to the same side
- Only one team can score per round
- Count only points for pucks that are past the opponent's furthest puck
- A "hanger" earns a bonus point, so $4+1=5$ points!
- The team that wins the round slides first in the next round
- The first team to score 15 points wins
